

Renato Pozzi

Ten years building web products. Currently at Toggl, working remote, and building Zilfu on the side. I'm curious about most things.

WORK

- | | |
|----------------|---|
| 2024 – Present | Senior Frontend Engineer
Toggl · Remote
Rewrote the data layer of Toggl Track's browser extension for 398k weekly users, and shipped it ~15k lines lighter across 969 files. A service architecture with incremental sync replaced ad-hoc API calls and full-list refetches; Chrome and Firefox now build from one Manifest V3 codebase. |
| 2022 – 2024 | Frontend Engineer
Kaaja · Milan · Hybrid |
| 2019 – 2021 | Technical Lead
Bluecube · Milan · On-site |
| 2015 – 2019 | Fullstack Engineer
Bluecube · Milan · On-site |

BUILDING

- | | |
|-------------|--|
| SaaS | <u>Zilfu</u> ↗
The social media scheduler for everyone tired of paying more to grow. I'm building it on my own, from design to deploy. |
| Open Source | <u>Aurora</u> ↗ 550+ stars
Cookie-free website analytics you host yourself. No cookies, no localStorage, no fingerprinting, so there is no consent banner to show. |
